Can a SONG change your life?

IN 1979

Record Executive **Lee Dorfman** gets a cassette from an unknown songwriter that blows him away.

Singer **Lana Daniels**, Lee's ex and still music partner, hears it and knows they've struck pure gold.

But rival exec **Tim Matteson** has heard it too and like a hyena can smell a killing miles away.

The hunt is on to track down the mysterious and brilliant new songwriter.

But who is he? Where is he?
And do they know this quest will transform their lives forever?

All they've got to go on is—
